

Services Offered

Neurotoxins

Neurotoxins reduce the appearance of fine lines. These areas can include: Forehead lines, frown lines, and crow's feet. Our options usually depend on patient preference, but individual goals can be assessed with Abbie!

- **Botox**
- **Dysport**

Facial Fillers

Facial fillers are used to improve volume loss and deeper lines while redefining the natural structure of the face and smoothing the skin.

Sculptra

Sculptra helps the face create its own natural collagen improving the effects of aging, while tightening and restoring facial fullness.

Juvederm Collection of Fillers

Voluma

Voluma is primarily used in the mid-face and cheeks to increase volume loss. Areas of treatment can include; cheekbones, nasolabial folds, and tear troughs.

Ultra

Ultra XC is primarily used in the lips to fill lines and enhance projection. It can also be used to fill the lines around the mouth and softens nasolabial folds.

Volbella

Volbella is known for its ability to enhance the lips in younger patients, but it can also be used to fill lines around the mouth.

Volux

Volux is primarily used in the jawline and chin to help redefine the structure of the face.

Vollure

Vollure is used to smooth deep lines in the mid-face.

SkinVive

SkinVive is a hydrating filler that is placed in the dermis of the skin, giving patients a dewy glow.

Chemical Peels

Chemical peels improve the skin's overall texture. Creating more even and brighter skin with minimal downtime while targeting fine lines, wrinkles and discoloration. We use SkinCeuticals chemical peels. Each are used for different skin types and for different goals:

- **Micropeel**
- **Pigment Balancing**
- **Smart TCA**

SkinPen

SkinPen is a microneedling device that offers great results with little downtime. SkinPen helps with collagen production, lightens scars, minimizes pores and promotes cell turnover. We offer with or without PRP (Platelet Rich Plasma)- further boosting the production of collagen and enhances overall result.

Your Provider

In a consultation with Abbie, she will help create a plan that best suits you and your specific goals.

Abbie Black, RN
